

## Independent Medical Education (IME) Grants - Transparency

Independent Medical Education (IME) is defined as education for healthcare professionals (HCPs) provided by an independent educational provider, such as a community hospital, academic center, society/association or medical education company.

GRAIL is committed to funding innovative and impactful education to **support** practicing healthcare professionals and the communities of care that they manage within our areas of interest.

### For Informational Purposes Only

| Grantee Name                        | Title of Program   | Direct Access Link (if available)  |
|-------------------------------------|--|--|
| Physicians Education Resource       | Medical Crossfire: Novel Applications of Liquid Biopsies Across Cancer Care  | <a href="https://www.gotoper.com">https://www.gotoper.com</a>  |
| Research to Practice                | Recent Advances in Medical Oncology: Colorectal and Gastric Cancer   | <a href="https://www.researchtopractice.com">https://www.researchtopractice.com</a>  |
| Research to Practice                | Oncology Today - Liquid Biopsy in Cancer Detection   | <a href="https://www.researchtopractice.com/OncologyTodayLiquidBiopsy20?playlistIndex=NaN">https://www.researchtopractice.com/OncologyTodayLiquidBiopsy20?playlistIndex=NaN</a>  |
| Postgraduate Institute for Medicine | Taking Steps Toward Achieving Cancer Control: Is Multi-Cancer Screening the Solution?                                | <a href="https://www.omedlive.com">https://www.omedlive.com</a><br><a href="https://clinicalserieslive.com">https://clinicalserieslive.com</a>   |
